Events

Event Review | Virtual Meeting – Building an Effective Safety Committee

On November 20th, the ASSP LA Chapter held a virtual workshop on effective safety committees. Hosted by Cecile Felsher, the workshop went over key aspects of starting and maintaining safety committees including forming the committee, roles and responsibilities of members, ensuring the committee is effective, and addressing common challenges. Thank you to Cecile for hosting a valuable session for the LA Chapter members!

Cal/OSHA Update | Workplace Violence Prevention

SB 553, the Workplace Violence Prevention bill, requires Cal/OSHA to have a proposed standard by the end of 2025 and approve the standard by the end of 2026. The current discussion draft being reviewed by the standards board advisory committee includes:

- Expanded definitions with examples for engineering controls, work practice controls, and workplace violence hazards.
- Post-incident procedures, including trauma counseling to employees and soliciting employee feedback on incident causes and preventative measures.
- Expanded recordkeeping requirements

The advisory committee met in November to discuss the current draft of the proposed regulation and is set to meet again in early 2026.

Mentorship and Emerging Professionals Programs

If you would like to be involved with the mentorship program, then please reach out to Jasmine San Nicolas at jsannicolas@uscompliance.com.
